EXPERIENCE

Bloomberg, London— *Software Engineer*

August 2019 - August 2019

A work experience programme which was focused on honing my skills and giving me the insight of the day to day activities a software engineer would encounter working at Bloomberg.

KPMG, London — *Discovery Week*

August 2019- August 2019

I had the opportunity to participate in the KPMG Discovery Week where I was introduced to the different groups at the firm.

Google, London — *Hackathon*

January 2019 - January 2019

I attended the first ever Black Googlers Network Hackathon hosted by Google. Where my team and I worked together using Kotlin and different other languages and the GCP to create. A way for students in countries and Areas with poor internet infrastructure to be able to use the internet to find answers to questions.
